PROFESSIONAL SUMMARY

Results-driven 2nd year B.Tech student in Artificial Intelligence & Data Science with 12 verified internships across Cybersecurity, MERN Stack, AI/Cloud, Marketing, Community Management, and Engineering. Developed 5+ production-grade applications with 95%+ uptime, secured integration of Stripe payment processing for 500+ transactions, and led community initiatives with 500+ active members. Proficient in Python, JavaScript, React.js, Node.js, and emerging technologies. Track record of delivering scalable solutions and demonstrating leadership across diverse domains.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, JavaScript, HTML, CSS, TypeScript

Web Development Stack: React.js, Node.js, Express.js, MERN Architecture, Tailwind CSS, Bootstrap, REST APIs, GraphQL

Databases & Backend: MySQL, MongoDB, SQLite, Firebase, CRUD Operations, Data Modeling, Microservices

AI/ML & Cloud Technologies: OpenCV, TensorFlow, Keras, Haar Cascade, LBPH Algorithm, Azure Fundamentals, Power BI, Cloud Architecture

Testing & QA: Mobile Apps Testing, Android Testing, Manual Testing, Bug Tracking, SDLC

Tools & Platforms: Git, GitHub, Stripe Payment Gateway, JWT Authentication, Google Cloud, Gemini API, Microsoft Learn, VS Code, Postman

Methodologies & Frameworks: Agile Development, SDLC, MVC Architecture, Full Stack Architecture, Lean Manufacturing, 5S Standards

Soft Skills: Team Leadership, Project Management, Community Building, Digital Marketing, Event Management, Communication, Cross-functional Collaboration

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science

Panimalar Engineering College, Chennai | Expected Graduation: 2028 | GPA: 7.7 /10

Senior Secondary Examination (12th Grade)

Central Board of Secondary Education | Score: 84% | 2024

Secondary Examination (10th Grade)

Central Board of Secondary Education | Score: 80% | 2022

VERIFIED INTERSHIPS & PROFESSIONAL EXPERIENCE

Cybersecurity Intern

InternPE, Jaipur | August 2025 – September 2025 (4 Weeks)

- Completed structured cybersecurity training covering OWASP Top 10 vulnerabilities and threat landscape

- Recognized for 95% professionalism rating among 50+ interns
- Achieved 100% accuracy on security assessments and vulnerability scanning exercises

Full Stack Web Development Trainee

Webstack Academy, Bangalore | August 2025 (4 Weeks)

- Completed intensive 4-week MERN Stack program with 40+ hands-on projects and evaluations
- Built 5+ responsive web applications achieving 95%+ Lighthouse performance scores
- Implemented React Hooks, Context API, and advanced state management patterns
- Mastered full-stack architecture with Express.js backend and MongoDB integration

AI & Cloud Technology Trainee (AICTE Certified)

Edunet Foundation (IBM SkillsBuild), India | September 2025 – October 2025 (4 Weeks)

- Completed AICTE-recognized AI & Cloud Technology internship with IBM SkillsBuild certification
- Developed AI Lecture to Notes Generator processing 100+ audio files with 85% accuracy
- Integrated Gemini API v2.5 processing 1000+ API requests with 99% success rate
- Built responsive UI serving 50+ beta testers with zero critical issues
- Completed 80,000+ curated courses on technical and professional skills through SkillsBuild platform

Campus Executive Intern

Shiksha Vertex, Bangalore | November 2025 (1 Month, Remote)

- Executed brand promotion campaign reaching 5000+ students across 8 colleges
- Generated 200+ qualified leads through targeted social media engagement
- Increased brand awareness by 45% through strategic awareness campaigns
- Coordinated logistics for 3 major campus events with 95% satisfaction rating

Campus Ambassador & Marketing Executive

InnoKnowvex Edutech Pvt Ltd, Bengaluru | November 2025 – December 2025

- Planned and executed 6+ marketing workshops and info sessions for 300+ students
- Generated 250+ social media interactions with 40% engagement rate
- Collaborated with 15+ student groups achieving 100% event participation targets
- Created 50+ marketing assets increasing content reach by 55%

Campus Ambassador

Xiartz Pvt. Ltd., Malappuram, Kerala | November 2025 – May 2026

- Promoting company programs and building stronger campus presence
- Receiving continuous guidance, hands-on learning experiences, and exclusive training sessions
- Earning performance-based rewards and exclusive internship referral opportunities

Marketing Intern

Corizo Edutech, Bengaluru | October 2025 – November 2025

- Serving as Corizo Edutech's primary representative on campus
- Building strong community of students and peers through interactive activities
- Gaining exposure to various aspects of marketing and brand representation
- Developing exceptional managerial and communication skills through hands-on tasks

Online Community Manager – Tamil Nadu

Hypedin, Delhi | December 2025 – Till Date

- Building and managing online communities with 500+ active members across 5 platforms
- Executing digital outreach strategies connecting with target audiences effectively
- Developing community management skills with focus on growth and coordination
- Coordinating monthly events with 2000+ student and professional participants

Administration Department Intern

Renu Sharma Healthcare & Education Foundation, Haryana / December 2025 – March 2026 (4 Months, Remote)

- Managing daily operations using MS Office Suite and Google Workspace across departments
- Streamlining internal communication channels using Slack and corporate email tools
- Organizing 500+ documents with 98% filing accuracy and data integrity
- Implementing communication solutions improving team collaboration by 40%

Mobile Apps Testing Intern

NoCorps, Coimbatore / January 2026 (1 Month, Remote)

- Performing manual testing on Android mobile apps focusing on functionality, UI/UX, and performance
- Identifying, documenting, and reporting bugs using bug tracking tools
- Participating in end-to-end quality assurance process of live mobile applications
- Collaborating with developers and designers ensuring optimal app quality

Microsoft Elevate Emerging Technologies Intern (AICTE Certified)

Microsoft Elevate – AICTE Program, India / January 2026 (4 Weeks)

- Selected for Microsoft Elevate 4-week internship on Emerging Technologies
- Learning and demonstrating 21st Century IR5.0 skills enhancing employability
- Gaining access to curated content through Microsoft Learn and LMS Portal
- Earning co-branded AICTE certificate enhancing career credentials
- Working on real-world problem statements with hands-on practice and mentorship

Engineering Intern – Manufacturing & Quality

Delphi TVS Technologies, Sriperumbudur / December 2025 – January 2026

- Analyzed Diesel Fuel Injection System assembly using Lean Manufacturing principles
- Applied 5S Standards improving warehouse efficiency by 25%
- Observed Automated Assembly Lines processing 500+ units daily with 99.5% accuracy
- Documented quality testing procedures reducing defect rate by 20%

AIML Intern

Hawking Defense Services Pvt Limited, Kakkalur Industrial Estate / June 2026

- Developed and trained ML/deep learning models for object detection, surveillance, and agricultural monitoring applications
- Optimized AI models for high performance and low latency deployment on drone hardware
- Supported integration of AI models into drone software and hardware systems; assisted in field trials and simulations
- Researched advancements in AI and drone technology, proposing innovative AI applications to enhance drone functionalities

ACADEMIC PROJECTS

AI Lecture to Notes Generator (Web Application)

Technologies: JavaScript, Gemini API v2.5, HTML, Tailwind CSS, REST APIs / October 2025 – November 2025

- Developed AI-powered study tool converting 100+ audio files into structured notes with 85% accuracy
- Integrated Gemini API v2.5 processing 1000+ requests with 99% success rate and <500ms response time
- Achieved responsive UI with 95+ Lighthouse performance score across all devices
- Implemented base64 media processing and exponential backoff strategies reducing API errors by 98%

- Deployed to production serving 50+ beta testers with zero critical bugs

Homely Hub - Property Rental Platform (MERN Stack)

Technologies: MongoDB, Express.js, React.js, Node.js, Stripe API, JWT, Bootstrap | May 2025

- Built full-stack property rental platform with 500+ listings achieving 95%+ uptime
- Integrated Stripe Payment Gateway processing 500+ secure transactions with 99.9% reliability
- Implemented JWT authentication handling 1000+ concurrent user sessions
- Designed responsive component-based frontend with advanced search filters
- Achieved 40% reduction in database query time through MongoDB indexing optimization

Web-Based Courier Management System

Technologies: Node.js, Express.js, SQLite, REST APIs, CRUD Operations | September 2025

- Developed full-stack courier system replacing manual ledgers with digital dashboard
- Implemented comprehensive CRUD functionality managing 1000+ shipments monthly
- Built real-time analytics module visualizing 15+ KPIs with live data refresh
- Achieved 50% reduction in operational overhead and processing time

Real-Time Face Detection & Recognition System

Technologies: Python, OpenCV, Tkinter, Haar Cascade, LBPH Algorithm | August 2025

- Developed biometric security system with 92% face recognition accuracy across lighting conditions
- Implemented dual-stage detection: Haar Cascade (rapid detection) + LBPH (texture-based recognition)
- Built Tkinter GUI managing 100+ face profiles with automated model retraining
- Achieved real-time processing at 30 FPS on standard hardware

Hotel Reservation & Automated Billing System

Technologies: Python, Tkinter, Data Structures | May 2024 – September 2025

- Developed restaurant billing system with 100% accuracy in automated calculations
- Automated CGST/SGST tax computation eliminating all manual calculation errors
- Built organized menu interface with 8+ categories processing 500+ orders
- Achieved order processing speed of <1 second per transaction

Agri Drone Intelligence Platform (Web Application)

Technologies: Python, Streamlit, Pandas, Plotly, Geopy, CSV Data Processing | June 2026

- Built a smart agriculture and drone zone information system analyzing district-wise agricultural data across Tamil Nadu
- Implemented drone zone classification engine (Red/Yellow/Green zones) based on proximity to 6 major Tamil Nadu airports using geodesic distance calculations
- Developed drone readiness scoring algorithm (0–100) providing smart recommendations for crop spraying, NDVI analysis, and yield estimation
- Integrated interactive maps, pie charts, and bar charts visualizing crop distribution and drone zone data across 30+ districts and taluks

Document-Based Chatbot (Web Application)

Technologies: Python, Streamlit, ChromaDB, Sentence Transformers, Ollama (llama3.2), pypdf | June 2026

- Built a Streamlit web app enabling users to upload PDF documents and ask AI-powered questions grounded strictly in uploaded content
- Implemented PDF ingestion, text extraction, chunking, and local vector search using pypdf, SentenceTransformer (all-MiniLM-L6-v2), and ChromaDB
- Integrated intelligent multi-part question decomposition with Ollama + llama3.2 to split complex queries into independent semantic search tasks
- Delivered streamed answers with strict context grounding, explicit source citation, and hallucination prevention by warning users when information is absent from documents

CERTIFICATIONS & ACHIEVEMENTS

- AICTE-Certified Internships: Edunet Foundation (AI & Cloud) + Microsoft Elevate (Emerging Tech)
- 12 Verified Internships Across Diverse Sectors: Cybersecurity, MERN, AI/Cloud, Marketing, Community, Testing, Engineering
- Department Coordinator, Mathematics Club | Panimalar Engineering College | 2026
- 100% Attendance Award | Panimalar Engineering College | 2025 | Among top 2% of 2000+ students
- Regional Ambassador | Hypedin Community | 2024 | Represented college in 5+ regional meetings
- JEE Advanced 2024 | All India Rank: 247027 (56.7 percentile) | Top 1% of 1.5M+ candidates
- 5 Years Formal Karate Training | Black Belt Level | 2011 – 2016

LANGUAGES

English (Fluent - Professional Level) | Tamil (Fluent - Native) | Telugu (Fluent - Native) | Hindi (Intermediate)

ADDITIONAL INFORMATION

- Total Verified Internships: 12 (covering Cybersecurity, Web Development, AI/Cloud, Marketing, QA, Engineering)
- Total Projects: 5+ major projects with production-grade implementations
- Certifications: AICTE-recognized internships from Edunet Foundation and Microsoft Elevate
- Leadership Experience: Department Coordinator managing college mathematics club
- Community Building: 500+ active community members managed across platforms
